

# Independence 3m Steplift

A modern system with  
up to three metres of travel

Reaching new heights

# Independence 3m Steplift

The Steplift that takes you further - capable of lifting 500kg to a maximum of 3 metres, while continuing to provide strength, modern aesthetics and configuration options.

This modern and lightweight access solution is available in two models - 2 metres and 3 metres. With three platform sizes, you can choose the system that best suits your needs. The aluminium and stainless steel construction provides both strength and modern aesthetics and can be tailored to suit individual requirements.

2m or 3m models

Battery operation

500kg capacity

Modern lightweight design

## Features

**Bespoke Option**

We can create a Steplift that is bespoke to your needs. We will assist with site requirements and advise on regulations and legislation (e.g. platform sizes, control requirements etc). We will ensure that your lift not only performs exactly as you want, but also looks exactly how you need it to.

Note: Specifications are correct at time of print and is subject to change as part of our ongoing Research and Development programme.
